

Efficiency, Speed, & Exceptional Reliability

Simplify teller activities & cash transfers within or between branches.

Teller Cash Recyclers

Feature-Rich Reliability

Whether your objective is greater teller efficiency, reduced customer wait times, or if you are considering Teller Cash Recyclers as part of a Branch Transformation strategy, Hyosung offers industry leading TCRs to meet your specific needs. The Hyosung **MS-500** and **MS-500S** models combine the fastest note processing speed in the industry with exceptional reliability

MS-500

Hyosung's full-size, digitally secure, fast and feature-rich cash recycler for financial institutions.

MS-500S

All of the functionality of the MS-500 in a smaller housing for deployment under a teller desk or workstation.

Connectivity

NextBranch works with several prominent providers including:

- Add-on Technologies
- Compuflex
- CFM
- Direct Teller Platform Integrations

Benefits

- Saves teller time / FTE with the **self-auditing feature**
- Improves efficiency with the ability to buy and sell cash from one TCR to another utilizing the **transit cassette**, eliminating dual control procedures
- Hyosung **TCR cash cassettes are cross-compatible** with Hyosung recycling ATMs
